Nebraska ranks 44th out of 51 states/DC for fruit and vegetable consumption.

(Source: 2005 BRFSS)

In an effort to improve this statistic, the Community Nutrition Partnership Council (CNPC) is promoting the *Pick a Better Snack* campaign to increase fruit and vegetable consumption in Nebraska. This campaign was originally developed by Iowa, but was adapted by CNPC to meet our needs in Nebraska. CNPC is comprised of nutrition professionals throughout the state of Nebraska that are interested in improving the health of Nebraskans with limited resources. With your help we hope to reach more people with our message and increase the amount of fruits and vegetables Nebraskans consume.
