Only 1 in 10 adults in the United States are eating the recommended amount of fruits and vegetables each day.

(Source: CDC)

In an effort to improve this number, the Community Nutrition Partnership Council (CNPC) is promoting the *Pick a Better Snack* campaign to increase fruit and vegetable consumption in Nebraska. This campaign was originally developed by Iowa, but was adapted by CNPC to meet our needs in Nebraska. CNPC is comprised of nutrition professionals throughout the state of Nebraska that are interested in improving the health of Nebraskans with limited resources. With your help we hope to reach more people with our message and increase the amount of fruits and vegetables Nebraskans consume.
